MOHAMMAD MUBASHIR KHAN

mk9694477@gmail.com | Warangal, Telangana | +91 8978860832 | LinkedIn GitHub

PROFESSIONAL SUMMARY

Entry-level Data Analyst with hands-on experience in data cleaning, data analysis, reporting, and dashboard development using Excel, SQL, Power BI, and Tableau. Experienced in transforming raw datasets into business intelligence insights through projects in Manufacturing, Stock Market, and Supply Chain & Inventory analytics, supporting data-driven business decision-making.

EDUCATION

Bachelor of Commerce (Computer Applications) | Kakatiya University 2021 – 2024

SKILLS

- **Technical Skills:**
  Excel: Formulas, Pivot Tables, Power Query.
  SQL: SELECT, WHERE, JOINs, GROUP BY, HAVING, Subqueries.
  Power BI: Dax, Modeling, Dashboards.
  Tableau: Visualizations, Filters, Dashboards.
  Python: Basic understanding
- **Data Analysis & Reporting:**
  Data Cleaning, Data Preparation, Data Transformation, MIS Reporting, KPI Reporting, Data Storytelling, Business Reporting, Handling CSV & Excel Datasets
- **Business & Analytical Skills:**
  Trend & Pattern Analysis, KPI Analysis, Performance Monitoring, Business Metrics Understanding, Data-Driven Decision Making
- **Core Strengths:**
  Data Accuracy & Attention to Detail, Problem-Solving & Logical Thinking, Clear Communication & Reporting, Time Management

PROFESSIONAL EXPERIENCE

Ai Variant – Data Analyst Intern **Bengaluru, India | May 2025 – Nov 2025**

- Cleaned and transformed raw datasets using Excel, SQL, and Power Query to ensure data accuracy and consistency.
- Built interactive dashboards using Power BI and Tableau to visualize key business metrics.
- Created KPIs and basic data models using Power Query and SQL to support reporting needs.
- Delivered data insights that supported business decision-making through reports and dashboards.

PROJECTS

Supply Chain & Inventory Management Analysis

- Tools Used: Excel, SQL, Power BI, Tableau
- Analyzed sales data, inventory levels, and stock movement using Excel and SQL.
- Performed data cleaning and data transformation to ensure accurate analysis and reporting.
- Built interactive dashboards in Power BI and Tableau to track inventory status and supply chain performance.
- Created KPIs for inventory turnover, stock availability, and demand trends.

Manufacturing Performance Analysis

- Tools Used: Excel, SQL, Power BI, Tableau
- Analyzed production output, efficiency, and downtime data using Excel and SQL.
- Cleaned and structured manufacturing data for analysis and reporting purposes.
- Built interactive Power BI and Tableau dashboards to monitor production performance and operational KPIs.
- Created KPIs for production efficiency, defect rate, and machine utilization.

Certifications & Training

Data Analyst Training Program – ExcelR ***(2025)***

- Hands-on training in Excel, SQL, Power BI, and Tableau with practical, project-based learning.
